## Soft Skills

- Team Work
- Problem-Solving
- Communication
- Attention to detail
- Empathy
- Creativity

## About me

I'm a Computer Engineering student with a strong passion for programming, cybersecurity, and artificial intelligence. I enjoy tackling real-world problems through hands-on projects, where I can apply and grow my technical skills. With experience in web development and a solid understanding of programming languages and databases, I'm constantly seeking new challenges that push me to learn and improve. I'm highly motivated, a fast learner, and eager to contribute to innovative tech solutions as part of a collaborative team.

## Experience

**Front-End Developer**
*IQA -  Quality Management Systems*                    2023 - Present

- Solid front-end experience with HTML, CSS, and JavaScript, gained in a professional environment.
- Back-end knowledge using C#, expanding full-stack development capabilities.
- Strong team collaboration skills, working with cross-functional teams to deliver high-quality, user-focused solutions.

## Education

**Bachelor of Computer Engineering**
*Lusofona University*                    2024- Present

- Gained in-depth knowledge in programming, system design, and software development through hands-on projects and coursework.
- Improved technical and problem-solving skills, building a strong foundation for a career in tech.

**Science & Techonology Course**
*José Saramago High School*                    2020- 2023

- Built a strong foundation in design and programming through hands-on projects in a Science and Technology course.
- Applied key tools and techniques to real-world challenges, gaining practical experience early on.

## Certification

**Introduction to Front-End Development**
*Coursera*

**Programming with JavaScript**
*Coursera*

**Introduction to Structured Query Language (SQL)**
*Coursera*
